Captain of Girls Varsity Basketball Team

Latoya Richardson

Student at Thomas A Edison Career And Technical High School
Brooklyn, New York, United States

Summary

My name is Latoya Richardson, and I am currently a junior at Thomas A. Edison High School. My academic journey at Edison has proven to be both enriching and challenging, particularly as I navigated the transition and adaptation to a new scholastic environment.

As a dedicated student, I am actively engaged in the Web Development Career and Technical Education (CTE) program, where I have honed my skills and knowledge in the realm of technology and programming. Furthermore, since my freshman year, I have been an integral member of the Thomas Edison Girls Basketball Team, showcasing my commitment to teamwork and discipline.

In my sophomore year, I demonstrated my academic excellence by gaining membership in the esteemed National Honor Society. Building on this foundation, during my junior year, I expanded my involvement by joining both the National Science Honor Society and SkillsUSA. These affiliations reflect my passion for academic achievement, scientific inquiry, and practical skills development.

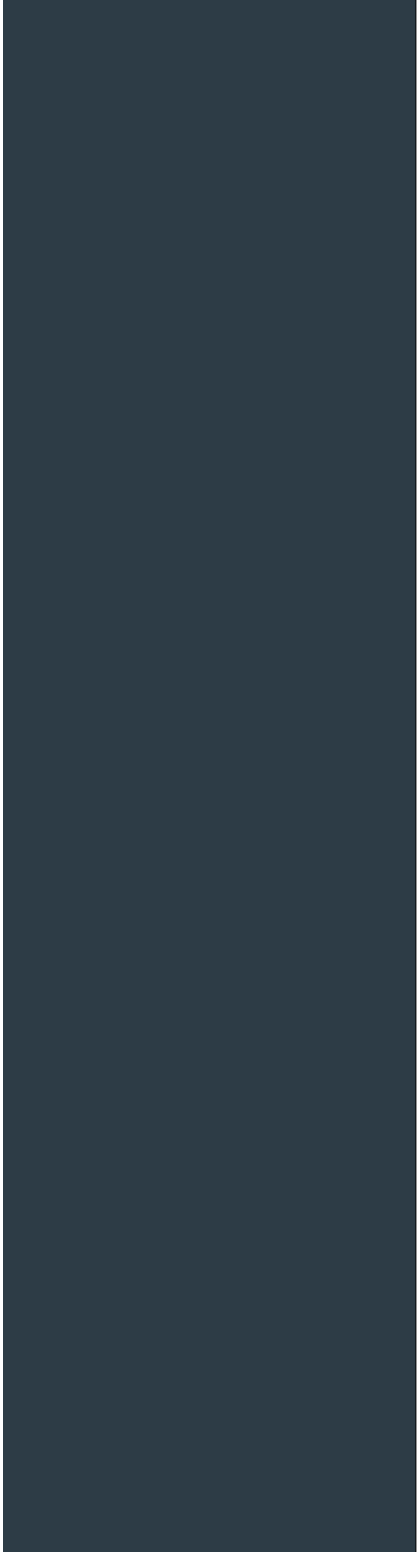

Participating in these extracurricular activities not only enhances my personal and academic growth but also strengthens my connection to the Edison community. I am committed to contributing meaningfully to both my academic pursuits and the larger school community, and I look forward to further opportunities for learning and collaboration during my remaining time at Thomas A. Edison High School.

Experience

Infosys

Student

2023 - Present (1 year)

Working as a student at Infosys in software development has been an immersive and enriching experience, providing me with invaluable insights into the dynamic world of technology and corporate software engineering.

As a part of Infosys, I have had the opportunity to collaborate with highly skilled professionals and engage in cutting-edge projects that demand innovation and precision. The work environment is characterized by a culture of continuous learning, where staying abreast of emerging technologies and industry trends is not only encouraged but essential.
